

NO CITY FERRYBOAT STRIKE

ENGINEERS AGREE TO GIVE NOTICE BEFORE THEY QUIT.

Further Conference With Commissioners. Tomkins, who insists on a promise to that effect before he will stop his preparations to fight a strike.

On the promise being given by F. W. Yates, national president of the Marine Engineers Beneficial Association, that there shall be no strike of the engineers on the municipal ferryboats without "reasonable" notice, the length of the notice to be left to the local board of United States steamboat inspectors, Dock Commissioner Calvin Tomkins agreed yesterday to discontinue his preparations to meet such a strike.

The conference yesterday was in confirmation of that of Wednesday. It was called in order that the object of the engineers might be more fully discussed. After they had been over and replied to, Commissioner Tomkins said:

"With regard to the well grounded grievance of the city the other day that the traffic was tied up without notice or consideration for the rights of others by a strike of the firemen, causing serious inconvenience to the public, I want to say that I as well as the other people of this city am anxious about the threatening attitude of the engineers. I want to know whether a strike of the engineers is still hanging over our heads, or whether in view of the attitude of this department to discuss frankly and fairly all grievances with the men you withdraw all implied threats and that you give me your explicit assurance that there will be no strike."

"I have not discussed that matter with the men," said President Yates, "but will not evade any responsibility. From the standpoint of the engineers the Dock Department is responsible for the conditions of uncertainty which have been prevailing. The Deputy Commissioner said he was going to do a certain thing, and if there is threatened trouble it is up to the department."

He was promising to go into matters brought up at the previous conference when the Commissioner said:

"I am not asking you to go into that matter again. I want to know if you know it. Will there be another strike? Is the threat of a strike still in existence? I want to know explicitly if the time has come when I can go home and tell my family that there will not be a strike."

President Yates repeated that the department was to blame for any feeling of uncertainty which was entertained by the Commissioner, who said:

"There is no use in going on in this way. You asked me at our last conference if I was making any promise to a strike. I have a disposition to strike or not, or before the people are inconvenienced by a tie up of the city, as you say, give them fair notice. Would you consider ten days a fair notice?"

President Yates did not know. Sometimes the executive departments of the city made mistakes, and sometimes they did not. He said that the Commissioner was preparing for a strike. He came with no threat to the conference. After some more fencing the Commissioner said that he wanted to know if there was a strike in the immediate future. Yes or no? We have already thrashed out the history of this people and a strike.

President Yates began to say that the Commissioner was trying to place the burden of the dissatisfaction on the men. Finally President Yates said that in his opinion there was no probability of a strike. That, he added, was his opinion. The news that strike breakers were engaged and that the Commissioner was engaged, he said, was the threat of trouble from the other side when the agreement was to the engineer who was to be discharged.

Commissioner Tomkins said that he kept the agreement by offering to pay the men out of his own pocket, and added:

"If you can give me a strike I will promise to pay aside all preparations for a strike on my part. I want to distinctly understand that if these men strike, I will pay the service of the city in this way they can never come back while I am Commissioner. They may return under another commissioner under my will."

After some further discussion, the tone of which became more friendly, President Yates said:

"I can say this: No concerted action of the men can be taken without reasonable notice. I will give notice, and the men who fix the matter of a notice, and in case of a strike, I do not want a strike and do not say there will be one. I am willing to leave the matter of a strike to the notice to the steamboat inspectors."

The Commissioner appeared relieved when he heard this, and rising, said, shaking hands with the men, and will take your statement as it stands and will discontinue the preparations for a strike."

A conference with the firemen will be held to-day. Both sides were in favor of a permanent committee with representatives from both sides.

BAYONNE'S TWIN CHIMNEYS.

Their Height in Feet Is as the Days of the Year—Landmarks for Ships.

At the Orford Copper Company's plant, Constable Hook, Bayonne, a twin chimney to one built a short distance away eleven years ago has been finished. The chimneys are among the tallest in the world. Their tops are 365 feet above the foundations.

The new chimney rests on 400 piles driven fourteen feet into the earth and filled with concrete. It is built of perforated radial bricks that weigh from 15 to 18 pounds each, acid proof and set in acid proof mortar. It is ten feet in diameter at the top and is provided with an outside ladder and lighting rods. If ordinary sized bricks had been used about 2,000,000 would have been required.

The two stacks in clear weather can be seen from vessels many miles at sea.

He's Got Our Leg On.

Rivalry between two manufacturers of artificial limbs which has resulted in suits for \$125,000 damages for slander was set forth in papers submitted to Supreme Court Justice Bischoff yesterday in which the court granted a motion by the defendants for a bill of particulars.

He stole our patent, and that leg he has on is our leg.

Pussy Frozen Fast to a Pole.

MONTCLAIR, N. J., Jan. 5.—When employees of the Public Service Corporation were erecting a new pole in North Willow street to-day a cat chased by a dog ran up the pole as the workmen were raising it to a vertical position. She stayed there until one of the men climbed up to get her. He found the pussy frozen fast to the crossbar of the pole.

HOCKEY.

Crescents Outplay St. Nicholas Team in Amateur Tournament Game.

The Crescent Athletic Club has a hockey team this year. It was unveiled at the St. Nicholas Skating Rink last night, and many enthusiasts who have been wondering what the Brooklyn club will do this year were on hand to watch the play. The Crescents met the St. Nicholas team and won. The winners scored almost at will and rolled up a total of 14 goals to 2 for their opponents. Toward the end the Crescents played the finish was time.

Need of a new rink for the Crescents. Instead of the number of goals scored being hung up as the game progressed electric numbers were flashed. It was a most up to date innovation and worked well. It certainly had a good trial. The rink was open up to 7:30, and nearly every one was rooting that more than 20 goals would be scored to see what the dial would do.

The Crescents had Liffiton and Shirreff on the line, and they played well together and seemed to be faster than ever. Martin, former captain of Yale, is a new member and played left wing. He too put up a good game and strengthened the line wonderfully. Jackson was right wing, and he can play well but was the weak spot. He seems to get indifferent at times, and then has a disposition that is not good in a hockey player. At goal Dr. Thomas made some wonderful stops, and in front of him Kennedy and Du Fresnoie were so strong that St. Nicholas players could rarely get by them.

On the St. Nicholas team were Von Bernoth, the old Columbia player, at goal; Richards at point and K. Gordon at cover-point. Von Bernoth was not in good form, but then he was not well supported by Richards and Gordon. On the line were Dole, formerly of Cornell; Cornell of Yale; Fraser, Campbell, and Fresnoie. They lacked team work and were absolutely unable to stop the Crescent rushes, and when they did get a shot they were from them very easy.

The game started in a spectacular way. The first shot was by the Crescent end of the rink and in fifty seconds Shirreff scored on a nice side shot. Then Richards was sent out for two minutes for tripping and Jackson scored from a scrimmage. Then Jackson got two minutes for cross checking. A little later hope minutes of play Shirreff scored on a pass from Liffiton. Thirty seconds later he scored again on a pass from Du Fresnoie. Then in 12 minutes 20 seconds Liffiton rushed the puck up and passed to Shirreff in front of the net and scored.

Almost from the faceoff Liffiton scored from Shirreff, making the total 6 for the Crescent. Jackson was sent out for a rule and went off for three minutes for cross checking. Liffiton on a pass from Martin scored the 7th goal. In this half Shirreff scored on team work in which Liffiton and Martin participated. Before the second goal was scored Liffiton got the puck from a faceoff and sent it into the net, scoring for St. Nicholas.

In the second half Liffiton did better and stopped some hard shots. Martin scored the first goal on a pass from Du Fresnoie. Then in 12 minutes 20 seconds Liffiton made a spectacular rush and scored, unassisted. Then Jackson scored on a pass from Liffiton. Liffiton made the next goal, catching the puck on a rebound after Liffiton had shot. And Martin scored the 11th goal in this half in a team play in which Jackson and Shirreff took part. All this was done in 4 minutes 20 seconds.

Shortly after this a whistle was blown from the side line, and Liffiton and Shirreff, who were skating to the bench for a minute, were sent back to the bench for a minute. He later headed the whole team out from the corner. Liffiton made the second goal for the Crescent. Liffiton made the third goal for the Crescent. Liffiton made the fourth goal for the Crescent. Liffiton made the fifth goal for the Crescent. Liffiton made the sixth goal for the Crescent. Liffiton made the seventh goal for the Crescent. Liffiton made the eighth goal for the Crescent.
